.....

The Year of the Eclipse!

A once in a life-time event on Monday, April 8th

A total [solar eclipse](#) will take place at the Moon's [ascending node](#) on Monday, April 8, 2024, visible across North America and dubbed the **Great North American Eclipse** (also **Great American Total Solar Eclipse** and **Great American Eclipse**) by some of the media.^{[1][2][3]} A [solar eclipse](#) occurs when the [Moon](#) passes between Earth and the [Sun](#), thereby obscuring the image of the Sun for a viewer on Earth. A total solar eclipse occurs when the Moon's [apparent diameter](#) is larger than the Sun's, blocking all direct sunlight, turning day into darkness.

IT'S NEVER TOO EARLY TO TALK ABOUT SUMMER SESSIONS!

Join us for our 3rd annual summer of learning, music reading, and movement at the NTFA conference in the DFW area!

Follow the QR code to register for a day of [Music!](#)

WE'RE SO HAPPY TO ANNOUNCE OUR SECOND LOCATION IN TOLAR, TX

Hang In There

Friends~

I know that everyone is feeling the budget effects all over the state regardless of where you live, so hang in there. Take some time to think of ways to make a few changes in your room with copies by laminating the page and using dry erase sheets. Think about your grade level programs and projecting your songs instead of making copies. For choir, make some Google slides and type out the lyrics instead of creating music folders.

For those of you with more than one Elementary campus in the district, share your instruments so you can continue moving forward and growing.

I can't imagine the struggle you're going through, but just remember we're here for you all. Please let us know how we can help you and you know where always here to chat with a friend.

Notable news to teachers

If you teach PreK, here's a wonderful YouTube channel you need to check out; Danny Go!
